## [Shawna Virago: Heaven Sent Delinquent](#)

Does it matter that Frisco based singer and guitarist **Shawna Virago** is a transgender? No, it doesn't when appraising the music as such, but since pretty all of the lyrics on her *Heaven Sent Delinquent* deal with being accepted as such it becomes clear that she has run into her fair share of misunderstandings, discrimination and all out harassment. No wonder she picked elements of punk, folk and good ol' outlaw country as the main genres for her music.

Virago means female warrior with masculine strength, a fitting stage name for a woman who fights the good fight through her music. It's just her and her acoustic guitar, the classic set up for a protest singer. Her vocals contains a twangy snarl, while she sings about relationships (*Gender Armageddon*, *Heaven Sent Delinquent*), sexual innuendo (*Last Night's Sugar*, *The Pleasure Car*), and politics (*Lands of Guns and Honey*).

*Heaven Sent Delinquent* is a statement. Virago's songwriting is a means to change things. She stands tall, brandishing her guitar, daring you to make a move. She calls herself "a queer folk punk princess songwriter", but first and foremost she is a superb lyricist, a balladeer who can please and accuse. Zealots and bigots will hate her, but the transgender community could haven't

asked for a better spokesperson to sing about their plights and good times.

*Heaven Sent Delinquent* is released on vinyl thru Tranimal Records. Lead single [Gender Armageddon](#) is available as a 7" single, with the non-album track *Tranimal* on the B-side. Get it from [CDBaby](#), [iTunes](#), [Spotify](#), [SoundCloud](#), [Amazon](#) and [Pandora](#).
