Shawna Virago Pioneers With Latest Single Heaven Sent Delinquent

June 6, 2020

Shawna Virago has pioneered and showed us she channels her strength through her music. With *Heaven Sent Delinquent*, the single talks about escape and how sometimes you have to blaze through to grow. Lyrics such as “I would have stayed but I had too much pride” carries more weight than a typical song. Guitar instrumentals open up the song just enough with rock that you can sense the angst, but not too heavy so that it gets out of the genre of easy listening. Virago prides herself on performing since the early 1990s, an era before social media and Instagram followers. Just raw, real music. The most organic a musician can get. The themes of storytelling and Americana run through the single and will have listeners closing their eyes envisioning the images that she creates with her lyrics.
