## Shawna Virago – “Heaven Sent Delinquent”

Will Oliver | October 16th, 2020

[Shawna Virago](#) has been performing as an out trans artist since the early 1990s, the voice of a generation before it received one in the mainstream. She has returned with a brand new single entitled “Heaven Sent Delinquent.”

The track is a “tale of escape, an anthem for outsiders too timid or shackled by family and economics to make it out of the oppressive towns where they were born.” Featuring an urgent call to arms of sorts with a bit of a raw 90s rugged rock spirit that wears its heart on its sleeve and shines with an authentic passion and grit.
